1.	Title	
2.	<p><b><u>The Story of Creation</u></b></p> <p>Table – seven days of creation</p>	<p>Please note: this is the only story of creation, in any religion, that is in agreement with scientific knowledge (as far as order is concerned)</p>
3.	<p><b><u>Creation vs. Evolution</u></b></p> <p>Table – how evolutionary thinking affects our understanding of man’s place in the universe</p>	<p>Evolution is a religion. It can’t be proven; nor is there adequate scientific evidence to prove it. In fact, evidence disproves it.</p> <p>Carl Sagan at the Amer. Assoc. for Advancement of Science:</p> <ol style="list-style-type: none"> <li>1. The most fundamental axioms and conclusions may be challenged.</li> <li>2. The prevailing hypothesis must survive confrontation with observation.</li> <li>3. Appeals to authority are impermissible.</li> <li>4. Experiments must be reproducible.</li> </ol>
4.	<p><b><u>Creation vs. Evolution</u></b></p> <ul style="list-style-type: none"> <li>● Proofs that the world has not existed for millions of years: <ul style="list-style-type: none"> <li>∩ The magnetic force of the world</li> <li>∩ The Sahara desert</li> <li>∩ Pressure of petroleum in the earth</li> <li>∩ The Mississippi River</li> <li>∩ The oldest tree in the world</li> <li>∩ Niagra Falls</li> <li>∩ The “dust” on the Moon</li> </ul> </li> </ul>	<p>Has been diminishing – 10k yrs ago couldn’t sustain life</p> <p>Has been growing –</p> <p>Pressure would have equalized in less than 10k yrs</p> <p>Depositing sediment</p> <p>4k yrs old</p> <p>ridge above has been eroding 9k yrs</p> <p>¼” deep</p>

<p>5.</p>	<p><b><u>The Grand Canyon</u></b></p> 	<p>This is one of my favorites, to be caused by erosion, the water would have had to flow UPHILL!</p>
<p>6.</p>	<p><b><u>Creation vs. Evolution</u></b></p> <p>Supposedly, all the continents were part of a “super-continent” called Pangea.</p>  <p>To do this, Africa has to be 35% smaller than it is today.</p> <p>You also have to eliminate Mexico and Central America.</p>	<p>Sorry to all the Mexicans, you don't exist.</p>
<p>7.</p>	<p><b><u>Creation vs. Evolution</u></b></p> 	<p>There are many places where the trees literally grow through various strata of rock. If these layers of rock represent millions of years, this is impossible. But, it could have happened in the flood.</p> <p>Evolutionists ignores anything that doesn't fit their theory.</p>

<p>8.</p>	<p><b><u>Creation vs. Evolution</u></b></p>  <p>The image shows a human skull in profile, facing left. Below it is a diagram of a hand labeled 'Type Hesperopithecus'. The diagram shows four fingers with labels: 'Posterior', 'Outer', 'Anterior', and 'Inner'.</p>	<p>It's amazing how much these "scientists" can deduce with only a little bit of fossilized bone.</p>
<p>9.</p>	<p><b><u>The Gospel in the Names</u></b></p> <p>The names of the first 10 generations</p>	<p>God is so particular with how He does things that He made sure that the names of the first generations would show us the good news.</p>
<p>10.</p>	<p><b><u>Genesis – Major Events</u></b></p> <p>Creation  Fall of Man  The flood  Tower of Babel  Abraham's life  Isaac's life  Jacob's life  Joseph's life</p>	<p>Note that the greatest event (as told by how much time is spent on it) was the life of Abraham.</p>
<p>11.</p>	<p><b><u>Life of Abraham</u></b></p> <p>His calling  Going down to Egypt  Abram &amp; Lot separate  God makes covenant with Abram  Hagar &amp; Ishmael  Abraham proved</p>	

12.	<b><u>Life of Abraham</u></b> Genesis 11:31 – Terah took Abram from Ur to Haran	Everyone talks about how Abraham took Terah from Ur to Haran, but the Bible doesn't say that.
13.	<b><u>Map of Ur, Haran, &amp; Canan</u></b>	Why did Terah stop?
14.	<b><u>Life of Abraham</u></b> Gen 12:1 – God calls Abraham	It wasn't until after Terah died that God called Abram.
15.	<b><u>Life of Abraham</u></b> Gen 15:18 (whole chapter) Covenant	
16.	<b><u>Life of Abraham</u></b> Gen 17:1-2 Covenant	
17.	<b><u>Life of Abraham</u></b> Gen 22:1-2 (whole chapter) God proves Abraham	Results???
18.	<b><u>Life of Abraham</u></b> Remember, God and Abraham are in covenant.  In covenant relationship, what belongs to one, belongs to the other.  Because Abraham offered his son, Isaac on the altar, God had to offer His Son to Abraham (or his offspring).
